**Help wanted.** We are starting to take steps to improve the acoustic quality in the sanctuary. The plan is to install panels in key areas on the walls, and ceiling church to absorb the reverb/flutter sound. The panels colors/textures need to be tastefully selected, and installation needs to be cleanly done. We would like the help of an Interior Designer/Decorator to help manage this process. We would meet with the acoustical engineer, and panel manufacture to select installing methods, fabrics, colors, and design patterns. Please contact Tony Ziegler at [tziegler@labsga.com](mailto:tziegler@labsga.com) if you can help. **Se busca ayudante.** *Estamos comenzando a tomar medidas para mejorar la calidad acústica en el santuario. El plan es instalar paneles en áreas clave en las paredes y la iglesia del techo para absorber el sonido de reverberación/aleteo. Los colores/texturas de los paneles deben seleccionarse con buen gusto y la instalación debe realizarse de manera limpia. Nos gustaría la ayuda de un diseñador de interiores / decorador para ayudar a administrar este proceso.
